1ST SESSION

H. RES. _____

Expressing the sense of the House of Representatives that the Centers for Medicare & Medicaid Services should be commended for implementing the medicare demonstration project to assess the quality of care of cancer patients undergoing chemotherapy, and should extend the project, at least through 2006, subject to any appropriate modifications.

IN THE HOUSE OF REPRESENTATIVES

Mr. HALL submitted the following resolution; which was referred to the Committee on _____

RESOLUTION

Expressing the sense of the House of Representatives that the Centers for Medicare & Medicaid Services should be commended for implementing the medicare demonstration project to assess the quality of care of cancer patients undergoing chemotherapy, and should extend the project, at least through 2006, subject to any appropriate modifications.

Whereas chemotherapy for cancer patients is primarily furnished in physician offices and is therefore subject to the revised method for determining payment amounts;

Whereas in 2005 the medicare program instituted a demonstration project to assess the quality of care for patients undergoing chemotherapy by collecting data on the impact of chemotherapy on cancer patients' quality of life;

Whereas the demonstration project is a strong effort to improve the quality of cancer treatment by assessing pain, nausea and vomiting, and fatigue;

Whereas the demonstration project reflects a foundation to evaluate important patient services moving forward;

Whereas payment amounts under the demonstration project have mitigated the significant reductions in medicare support for chemotherapy services that would otherwise have gone into effect;

Whereas reports by the Department of Health and Human Services and the Medicare Payment Advisory Commission regarding any adverse effects from the changes in the reimbursement method for chemotherapy services are not due until late 2005 and January 1, 2006;

Whereas the demonstration project achieves the concurrent objectives of collecting data to improve the quality of cancer care and maintaining financial support for cancer chemotherapy pending the completion and review of studies on the recent reimbursement changes;

Whereas it may be possible to modify the demonstration project to collect additional or different data elements that would make it even more useful in enhancing the quality of cancer care; and

Whereas it is essential that the access of medicare cancer patients to chemotherapy treatment be maintained and in

the strong interest of patients that the quality of their care be assessed and improved: Now, therefore, be it

1 *Resolved*, That it is the sense of the House of Rep-
2 representatives that —

3 (1) the Centers for Medicare & Medicaid Serv-
4 ices should extend, at least through 2006, the medi-
5 care demonstration project to assess the quality of
6 care for patients undergoing chemotherapy;

7 (2) the demonstration project should be modi-
8 fied, if appropriate to do so, to accumulate even
9 more useful data relating to the quality of care fur-
10 nished to medicare patients with cancer, and patient
11 outcomes; and

12 (3) payments to physicians for participation in
13 the demonstration project should facilitate continued
14 access of medicare patients with cancer to chemo-
15 therapy treatments of the highest quality.
