About the Co-Sponsors

About the AGA Institute

The American Gastroenterological Association is the trusted voice of the GI community. Founded in 1897, the AGA has grown to include 17,000 members from around the globe who are involved in all aspects of the science, practice and advancement of gastroenterology. The AGA Institute administers the practice, research and educational programs of the organization. www.gastro.org.

About the American Society of Clinical Oncology

The American Society of Clinical Oncology (ASCO) is the world's leading professional organization representing physicians who care for people with cancer. With more than 28,000 members, ASCO is committed to improving cancer care through scientific meetings, educational programs and peer-reviewed journals. For ASCO information and resources, visit www.asco.org. Patient-oriented cancer information is available at www.Cancer.Net.

About the American Society for Radiation Oncology (ASTRO)

ASTRO is the largest radiation oncology society in the world, with more than 10,000 members who specialize in treating patients with radiation therapies. As the leading organization in radiation oncology, biology and physics, the Society is dedicated to improving patient care through education, clinical practice, advancement of science and advocacy. Information on ASTRO can be found online at www.astro.org. For more information on radiation therapy, visit our patient Web site at www.rtanswers.org.

About the Society of Surgical Oncology (SSO)

The SSO is an international surgical specialty society of more than 2,300 cancer surgeons practicing in both academic- and community-based settings who have training and experience in the multidisciplinary approach to the prevention, diagnosis, treatment, and rehabilitation of cancer patients. SSO members serve as gatekeepers for patients with solid tumor cancers and have primary responsibility for diagnosing and staging of cancers. The Society's purpose is to advance surgical oncology training, provide surgical oncology education, and foster oncology research to ensure that all cancer patients receive the highest quality, most comprehensive, multimodal care available. More information on the SSO can be found at www.surgonc.org.
