

## **Public Relations Policies**

### **PUBLIC AFFAIRS STAFF/AUTHORS/STUDY SPONSORS**

- The *JCO* embargo date is the online publication date at 4:00 PM ET.
- *JCO* studies are published online every Monday, unless Monday is a holiday, in which case the *JCO* studies publish the next business day.
- ASCO occasionally issues an embargoed *JCO* News Digest to news media highlighting select *JCO* studies. Authors and their institutional public affairs representatives (if applicable) will be notified prior to publication should their study be selected for a *JCO* News Digest
- Once notified that a study has been selected for a *JCO* News Digest, institutional public affairs representatives and/or authors must coordinate media outreach efforts with ASCO; please contact Nicole Fernandes in ASCO's Communications Department at 571-483-1354 or [nicole.fernandes@asco.org](mailto:nicole.fernandes@asco.org).
- Abstracts for studies that have manuscripts in process with the *JCO* may be submitted to scientific meetings for presentation prior to the publication date. In these instances, authors may participate in official meeting press events so long as those events are organized by the meeting itself as opposed to the institution or the sponsor. Information shared with reporters should be limited to the information that is being shared in the scientific presentation, with the exception that authors are free to answer reporter questions that may fall outside the bounds of the presentation.
- ***For non-News Digest articles***, institutional public affairs representatives/authors/study sponsors may publicize in-press studies on an embargoed basis up to five days prior to the embargo date. Embargoed interviews with journalists should occur only during that five day period. *JCO*/ASCO cannot provide authors/public affairs staff/study sponsors with copies of *JCO* articles until their embargoes have lifted. Any media requests for embargoed copies of *JCO* studies should be directed to Nicole Fernandes at [nicole.fernandes@asco.org](mailto:nicole.fernandes@asco.org).
- Authors conducting embargoed interviews should reiterate the *JCO* embargo date and time with journalists.
- ***For JCO News Digest articles***, the same policy as above applies with the exception that a copy of the embargoed study and *JCO* News Digest are available to institutional public affairs staff and/or authors up to one week prior to the embargo date and time.
- Institutional public affairs representatives are responsible for ensuring their media outreach efforts do not result in a violation of the *JCO* embargo policy. For this reason, widespread electronic distribution of embargoed releases is strongly discouraged.
- Authors conducting embargoed interviews should reiterate the *JCO* embargo date and time with journalists.

- *JCO* publishes all articles on JCO.org in advance of the print publication. Articles are published online at 4:00 PM ET on Mondays, unless Monday falls on a holiday, in which case the *JCO* studies publish the next business day.
- To request an estimated publication time frame (i.e. – weeks, months, etc.) or specific publication date, please email [jco@asco.org](mailto:jco@asco.org). For embargo policy questions, please contact Kelly Baldwin in ASCO's Communications Department at 571-483-1365 or [kelly.baldwin@asco.org](mailto:kelly.baldwin@asco.org).
- Institutional public affairs representatives may sign up to receive the weekly *JCO* Publish Ahead of Print Notifications. Please contact Nicole Fernandes in ASCO's Communications Department at 571-483-1354 or [nicole.fernandes@asco.org](mailto:nicole.fernandes@asco.org).
- ASCO reserves the exclusive right to publicize issues of the *JCO* in their entirety; authors may publicize only their own manuscripts.
