

ASCO Annual Meeting Disclosure

In compliance with standards established by the Accreditation Council for Continuing Medical Education (ACCME), it is ASCO's policy to promote balance, independence, objectivity, and scientific rigor in all of its educational activities through the disclosure of financial interests, among other measures. **All authors and faculty participating in ASCO's Annual Meeting publications and program are required to disclose relationships with commercial interests that may have a direct bearing on relevant subject matter.** The financial interests or relationships requiring disclosure are outlined in ASCO's Conflict of Interest Policy.

The intent of ASCO's disclosure requirements is to identify author and faculty relationships openly, so attendees and readers can form their own judgments about the publication in light of these relationships. It remains for readers to determine whether the author's disclosed relationships reflect a possible bias in the publication or the conclusions presented.

The categories of relationships that authors and faculty are required to disclose are detailed here as a guide to the disclosure statements that appear in the following Disclosure Index.

Relationships Requiring Disclosure

Employment or Leadership Positions

Any full- or part-time employment or service as an officer or board member for an entity having an investment, licensing, or other commercial interest in the subject matter under consideration must be disclosed.

Consultant or Advisory Role

Consultant or advisory arrangements with an entity having an investment, licensing, or other commercial interest in the subject matter under consideration must be disclosed if consultation was performed or payments made for such consultation within two years of the activity or subject matter in question.

Stock Ownership

Any ownership interest (except when invested in a diversified fund not controlled by the covered individual) in a start-up company, the stock of which is not publicly traded, or in any publicly traded company must be disclosed if the company is an entity having an investment, licensing, or other commercial interest in the subject matter under consideration.

Honoraria

Honoraria are reasonable payments for specific speeches, seminar presentations, or appearances. Disclosure of honoraria is required when paid directly to the covered individual by an entity having an investment, licensing, or other commercial interest in the subject matter under consideration and when provided within two years of the activity or subject matter in question.

Research Funding

All payments associated with the conduct of the clinical research project in question must be disclosed if provided by the trial sponsor or agents employed by the sponsor.

Expert Testimony

Provision of expert testimony must be disclosed when the testimony relates to the subject matter under consideration.

Other Remuneration

The value of trips, travel, gifts, or other in-kind payments not directly related to research activities must be disclosed if received from an entity having an investment, licensing, or other commercial interest in the subject matter under consideration and when received within two years of the activity or subject matter in question. These payments exclude research-related costs and travel.

2010 Cancer Communications Committee Disclosure Index

Financial relationships reported by members of the Cancer Communications Committee are provided below. During all phases of planning for the Annual Meeting, areas of conflict were managed through a peer-review process and/or through individual recusal when appropriate. Relationships in the first column are considered employment relationships unless designated as a leadership position.
