Featured studies include:

- Results from a pilot program exploring tools to help clinicians discuss patients' questions and concerns about cancer drug pricing.  
  (Abstract 4)
- Findings from an examination of the variation in use of advanced imaging (CT, PET and bone scans) among women diagnosed with early-stage breast cancer, where use is not necessarily indicated.  
  (Abstract 287)
- The results of a promising program designed to help avert emergency room visits by oncology patients.  
  (Abstract 51)

ATTRIBUTION TO THE 2016 QUALITY CARE SYMPOSIUM IS REQUESTED IN ALL NEWS COVERAGE.

About ASCO:

Founded in 1964, the American Society of Clinical Oncology (ASCO) is the world's leading professional organization representing physicians who care for people with cancer. With nearly 40,000 members, ASCO is committed to improving cancer care through scientific meetings, educational programs and peer-reviewed journals. ASCO is supported by its affiliate organization, the Conquer Cancer Foundation, which funds ground-breaking research and programs that make a
tangible difference in the lives of people with cancer. For ASCO information and resources, visit www.asco.org. Patient-oriented cancer information is available at www.cancer.net.
