ASCO QOPI Certification Program: What Oncology Practices Need to Know

The American Society of Clinical Oncology (ASCO) continues to monitor the Novel Coronavirus (COVID-19). As the global impact of COVID-19 grows daily, our priority is always on the health and safety of our community, including ASCO members and staff.

ASCO has suspended all March and April travel for on-site surveys for the safety of our Quality Oncology Practice Initiative (QOPI) Certified practices, patients, and staff. Certification extensions will be granted for all re-Certifying practices affected by this travel restriction and delay of on-site surveys.

More information about this development and ongoing updates can be found at https://myqopi.asco.org. If you should have any questions, please email amy.evers@asco.org.

Thank you for your ongoing patience and support as we take precautions to keep everyone safe and healthy during the COVID-19 pandemic.
