Olivier Vandenberg has been trained as Clinical Microbiologist (2001) and completed his PhD in Biomedical Sciences (2006) at Université Libre de Bruxelles (ULB), Brussels, Belgium. From 2008 to 2017, he was appointed Head of the Department of Microbiology of the Brussels university hospitals network. In 2016, Dr Vandenberg joined the Division of Infection & Immunity, University College London (UCL) as Honorary Senior Lecturer. Since 2017, he took the lead of the Innovation and Business Development Unit of the University Laboratory of Brussels (LHUB-ULB). In addition, he is currently Professor of Microbiology in the School of Public Health and in the Faculty of Medicine of the Université Libre de Bruxelles.

Most of his researches focus on foodborne pathogens and the clinical impact of new diagnostic tools in both industrialized and low-resource settings. Since 2000, he has also supervised the consolidation of several microbiology laboratories allowing the implementation of infectious disease surveillance programmes in industrialized but also in Low and Middle Incomes Countries (LMIC). Besides this, he collaborates with different manufacturers in the development of new approaches for the diagnosis and control of infectious diseases.

These field activities led him to be member of the WHO Advisory Group on Integrated Surveillance of Antimicrobial Resistance (AGISAR) to support WHO’s effort to minimize the public health impact of antimicrobial resistance and the use of antibiotics in food animals. Since 2014, he has been appointed member of the ECDC Food & Waterborne Diseases – Network Coordination Committee.
Jeeyun Lee, MD

ASCO Global Webinar Series: Experiences and Lessons During the COVID-19 Pandemic
April 21, 2020

Speaker: “Triaging, Pre-screening, Screening Oncology Patients for COVID-19: the SMC Experience in Korea”

Dr. Jeeyun Lee is an Associate Professor in the Division of Hem/Oncology at the Samsung Medical Center in Seoul, Korea. Dr. Lee specializes in gastric cancer, colorectal cancer, sarcoma, and melanoma.

She completed her Clinical Fellowship in Hematology-Oncology at the Division of Hematology-Oncology, Department of Medicine, Samsung Medical Center, Sungkyunkwan University School of Medicine, Seoul, Korea and her residency in Internal Medicine at the Samsung Medical Center, Sungkyunkwan University School of Medicine, Seoul, Korea. Dr. Lee is a member of the American Society of Clinical Oncology, American Association for Cancer Research and the Korean Association of Clinical Oncology.
Alvaro Rogado

ASCO Global Webinar Series: Experiences and Lessons During the COVID-19 Pandemic  
April 21, 2020
