Welcoming Remarks
Edward S. Kim, MD, FACP
Chair, ASCO Research Community Forum Steering Group
Chair, Solid Tumor Oncology and Investigational Therapeutics
Donald S. Kim Distinguished Chair for Cancer Research
Levine Cancer Institute
Atrium Health
September 24, 2018

Meeting Objectives
- Network and collaborate with physician investigators and research staff from all types of research programs
  - Community-based sites
  - Academic research networks
  - Participating in federally- and/or industry-sponsored trials
- Share best practices, discuss challenges, brainstorm about innovative solutions
  - Effective strategies for conducting and managing clinical trials
  - Facilitate clinical trial participation and accrual
- Be engaged and think outside the box - how can we fix the current state of affairs?

ASCO RCF Steering Group
Edward S. Kim, MD, FACP Chair | Levine Cancer Institute, Atrium Health
David Waterhouse, MD, MHP Chair-Elect | Oncology Hematology Care, Inc.
Dax Kurbeoglu, MD, Immediate Past Chair | Sarah Cannon Research Institute
Lora Black, RN, MHP, OCN, CCRP | Sanford Health
Andrea Buchmeier, MHA, CCRC, LSWG | Sarah Cannon Research Institute
Leslie Byatt, CHT, CCRC | New Mexico Cancer Care Alliance
Karin Choquette, MSN, RN, CCRC | Virginia Cancer Specialists
Casey Dawson, BBA | SWOG
Kandie Dempsey, DBA, MS, RN, OCN | Christiana Care Health Services
Peg Ford | Ovarian Cancer Alliance of San Diego
Marie Good, RN, MPH, OCN | National Cancer Institute
Jinju (Jane) Liu, MD | Illinois Cancer Care
Grzegorz (Greg) Nowakowski, MD | Mayo Clinic
Erika K. Radeke, MS | John H. Stroger Hospital of Cook County
James A. Reeves, MD | Florida Cancer Specialists
Kert D. Sabbath, MD | Smilow Cancer Hospital-Waterbury

ASCO Staff:
Patricia Hurley, MSc
Courtney Davis

+2 active task forces

ASCO Research Community Forum Annual Meeting

2018 Meeting Planning Group Members
- Ed Kim, MD (Chair)
- Lora Black, RN, MHP
- Leslie Byatt, CHT, CCRC
- Kandie Dempsey, DBA, MS, RN, OCN
- Dax Kurbeoglu, MD
- Greg Nowakowski, MD
- Kert Sabbath, MD
- David Waterhouse, MD, MHP
- Patricia Hurley, MSc (Staff Lead)
- Courtney Davis (Staff Coordinator)
Meeting Participants

- 165 participants
- 34 US states, the territory of Guam, and South Korea

Participants

- 165 attendees
- 38% physicians
- 62% non-physicians
- Organization type
  - 58% from community-based practices (private practice, research network, NCORP sites, academic-affiliated)
  - 24% from academic research centers
  - 11% others (advocate, AACI, ACRP, SCRS, vendor, industry)
  - 7% federal employees (FDA, NCI)

Importance of Clinical Trials: Must Allow More Patients to Participate
This is your forum!

- Highest attendance ever! Keeps growing.
- Encourage audience interaction
- Network and collaborate with physician investigators and research staff from all types of research programs
  - Community-based sites
  - Academic research networks
- Participating in federally- and/or industry-sponsored trials
- Share best practices, discuss challenges, brainstorm about solutions
- Effective strategies for conducting and managing clinical trials
- Facilitate clinical trial participation and accrual

What year was ASCO founded?

- Seven physicians founded the American Society of Clinical Oncology on April 9, 1964, at the Edgewater Beach Hotel in Chicago, Illinois.

ASCO Overview

Richard L. Schilsky, MD, FACP, FSCT, FASCO
Senior Vice President and Chief Medical Officer

September 24, 2018

ASCO’s Structure & Governance

Two 501c3’s - Three Boards - Five Entities
**ASCO 2019-2023 Strategic Plan**

<table>

Five-Year Outcome Statement: Progress Toward Our Vision by 2023

ASCO leads the delivery of information and diverse expertise needed by the global oncology community to reduce the burden of cancer.

**ASCO’s Mission Pillars**

- **Research**
- **Education**
- **Quality**

**Goal Descriptors**

- Meet the Needs of Our Members and Others
- Increase Quality of Care
- Steward Our Resources
- Make a Global Impact

**Five-Year Goal 1**

Redefine the needs of ASCO’s members and key constituents and deliver better support for the modern oncology professional.

**Five-Year Goal 2**

Ensure the evidence, tools, research, and advocacy are available and useful to the practices and professionals delivering care.

**Five-Year Goal 3**

Smartly allocating ASCO’s resources to maximize sustainability, efficiency, and ability to provide superior member experience.

**Five-Year Goal 4**

Supporting global delivery of quality care through bi-directional networks, quality tools, and research.

---

**CENTRA Mission & Vision**

**Mission:**

- Supporting ASCO’s mission to conquer cancer by generating, integrating, analyzing, and sharing oncology data to foster innovation in research and patient care

**Vision:**

- A world where evidence drives innovation in cancer care, informs policy, and improves patient outcomes

**CENTRA Scope**

- Managing ASCO Data Assets for Research Use
- Conducting and Supporting ASCO Research
- Facilitating ASCO Member Engagement in Quality Research

---

**Principles for Prioritizing ASCO Research**

- Identifies research questions that ASCO is uniquely poised to address
- Fills knowledge gaps that are clinically meaningful to patients and providers
- Informs ASCO policy development
- Builds on and enhances ASCO’s existing infrastructure (e.g., CancerLinQ, TAPUR, ASCO data assets)
- Employs research methods and tools that are embraced by ASCO and fit for purpose
- Engages patients and their advocates in all aspects of the research process
ASCO Data Assets

- Survey Data (U.S. only)
  - Oncology Practices
  - Oncologists
  - Nurse Practitioners
  - Physician Assistants
  - Oncology Trainees
  - Cancer Survivors
- Quality Oncology Practice Initiative (QOPI) Data
- QOPI Certified Practice Data
- TAPUR Study (coming 2018)
- Journal Articles (Full Text, XML)
- Meeting By-Products
  - Abstracts
  - Educational Book Articles
  - Presentation Videos
  - Meeting Slides
- CancerLinQ Discovery

More information can be found at [https://www.asco.org/research-progress/asco-data-library](https://www.asco.org/research-progress/asco-data-library).

Research About ASCO Members

- ASCO-directed research
  - Support of ASCO strategic research projects related to ASCO members
  - Survey development and implementation.
  - Assistance with data analysis, generation of results/figures/tables
- Member-directed research
  - ASCO Member Research Survey Pool (MRSP)
  - Quarterly submission of surveys projects for research-related purposes
  - "Competitive" evaluation with selection of two to implement (eight per year)
  - Process includes evaluation, implementation, and return of data to research team
  - Kick-off: plan to start taking applications at end of 2018, when pool is sufficiently large
  - Current enrollment: > 300

Enhancing ASCO Research Capabilities

- Improved research tools
  - REDCap
  - STATA
  - medidata
- Biostatistics Master Services Agreement
- Staff Professional Development
  - Oncology 101s
  - Journal club
  - Research series

TAPUR Study Milestones

- Added 47 sites for total of 113 sites
- Enrolled 1000th participant July 2018
- 16 cohorts have expanded to Stage II.
- 5 cohorts closed after Stage I.
- Permanently closed
- Added 47 sites for total of 113 sites
- Enrolled 1000th participant July 2018
- Design manuscript published JCO PD July 2018
- Poster presentation on 2 cohorts at AM 2018
Volunteer Groups Involved in ASCO Research Programs

- Cancer Research Committee
- Research Community Forum
- CancerLinQ Research and Publications Committee
- TAPUR Steering Group
- TAPUR Publications Group
- TAPUR Molecular Tumor Board
- TAPUR Data and Safety Monitoring Board
- Workforce Advisory Group

Thank You!
