

AMERICAN SOCIETY OF CLINICAL ONCOLOGY

The Oncology Student Interest Group (OSIG) Program seeks to develop the future oncology workforce and foster oncology exposure at medical schools in the U.S. and internationally. The program provides student interest groups with access to educational resources, specialized Annual Meeting opportunities, and funding to support the group’s activities and meetings.

Established in 2015, the program has grown from 30 groups in its first year, to 94 sponsored groups (18 international and 76 domestic) in the current year, with representation from 34 U.S. states/territories, with both D.C. and Puerto Rico represented, and 10 countries.
