

Continuing Education Program Mission Statement

The mission of ASCO's CE Program is to enhance patient care through education of the members of oncology teams.

ASCO® will successfully meet the purpose of this mission by utilizing the following strategies:

- Educational activities will focus on improving the skills of the oncology team and its individual members;
- Educational activities will incorporate a wide range of formats;
- Educational content will meet the highest standards of balance, independence, objectivity and scientific rigor;
- Outcomes of educational activities will be measured by changes in oncology team members' competence and performance; and
- Educational activities will reflect continual reassessment of practice gaps in the field of oncology.

*Approved by the Executive Committee of the Board, January 26, 2009.
Updates approved by the CME Subcommittee October 2010, February 2016, February 2017.*
