The ASCO ACT Network is an easy way to connect directly with your lawmakers about issues of top importance within the oncology community. You can:

- Directly contact your federal and state representatives about vital and timely policy issues
- Send personalized pre-drafted messages to your lawmakers
- Receive updates on pivotal oncology-related policies
- Access the ACT Network from your desktop or on-the-go from a mobile device
- Visit: asco.org/ACTNETWORK

Nearly all Members of Congress use social media as a barometer for how constituents feel about issues before Congress.

To reach your representatives on social media:

- Tag their name or user handle
- Be specific about the issue you’re referencing
- Be clear about your request with language like “co-sponsor a bill”, or “vote yes”
- Retweet or ‘like’ posts from prominent voices, such as ASCO, and tag your representative
